REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record taken either singly or in combination fails to anticipate or fairly suggest the limitations which the Applicants claim in claims 17, 20-28, 31-40 in a manner which would warrant a rejection under 35 U.S.C. § 102 or 35 U.S.C. § 103.

There was no prior art found by the examiner that suggested modification or combination with the cited prior art so as to satisfy the combination of the present independent claims 17 and 28; especially, the prior art does not disclose a light emitting semiconductor body for use in an LED housing; the semiconductor body being provided with a layer comprising a wavelength-converting casting composition; the casting composition comprising luminous substance particles; the luminous substance particles comprising luminous substance pigments selected from the group consisting of garnet doped with rare earths, thiogallates doped with rare earths, aluminates doped with rare earths, and orthosilicates doped with rare earths; the luminous substance pigments having grain sizes $\leq 20\text{ }\mu\text{m}$ and a median diameter $\leq 5\text{ }\mu\text{m}$.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
